I the defendant Romail Leach, am addressing the court to take into consideration my departures, for acceptance of responsibility to the government. I did enter a plea of guilt on 10/03/05 and my plea agreement clearly stipulated that I was eligible and would obtain my "Acceptance of Responsibility". I would like for the government to acknowledge the fact that I have not yet received any additional credits from the court for my acceptance of responsibility. I have also took other steps in regards of this matter, one in fact was on 5/16/06 when I took the stand in all honesty in favor of the government against my Co-defendant. Then on a later date to be exact 6/13/06 I submitted to polygraph examination on what my attorney and the government has recognized as unrelated issues. I was said to have failed this polygraph examination knowing that my responses were truthful. I'm pleading my "Acceptance of Responsibility" regards to the government because I fall under the eligibility requirements for this departure but have thus far not received any credits for my voluntary acceptance and or cooperation with the government.
